Work Experience

Chief Technology Officer, Sr iOS Developer SpeakApp Social Media Private Limited, Ahmedabad

May 2018 - Present

- Successfully managed the development of a social media application with a focus on user experience and customer satisfaction.
- Collaborated closely with stakeholders and product owners to define and prioritize product requirements.
- Developed an end-to-end product for iOS and Android apps with 60+ screens and more than 100 APIs. Responsibilities included designing the database, creating robust algorithms for the backend, and ensuring the system could handle a maximum number of parallel users.
- Developed and implemented new strategies to improve the development process, resulting in increased productivity and quality.
- Participated in various programs to improve app quality and made the apps to threshold levels suggested by Apple and Google.
- Worked on creating AI algorithms for resulting personalised interests data from the wide range of data

Chief Product Officer, Sr. iOS Developer Plutomen Technologies Private Limited Ahmedabad

November 2016 - April 2021

As the Chief Product Officer (CPO) at Plutomen, I spearhead the product strategy, innovation, and development, driving the vision for a product portfolio to deliver exceptional value to the customers. My role is to ensure that the products not only meet market demands but also exceed customer expectations and align with the company's overarching business goals.

My roles and responsibilities were:

- Develop and manage a comprehensive product roadmap that supports both short-term and long-term business goals.
- Oversee the entire product lifecycle, from ideation and design to development, launch, and iteration.
